Introduction:

Listed below are four examples of eLogs Annual Reports for OBGYN Residents. Cases 1 & 2 are examples of a resident who is off cycle. Case 3 is an example of a resident on-cycle with errors in the Annual Report. Case 4 is an example of a resident who is on cycle with a schedule with 13 blocks fit into 12 months.

Hypothetical case 1, resident off cycle: Off Cycle Year

Resident Dr. OBGYN Slick is a first year resident (OGME-1) who took a leave of absence from July 28, 2010 to August 31, 2010. Dr. Slick's OGME-1 contract year was extended to July 31, 2011.

Contract year: OGME-1 July 1, 2010-July 31, 2011

Master Schedule academic year starting July 1, 2010:

Month/Block Number	Assigned Service/Master Schedule
July 2010 (Block 1)	Emergency Medicine
August 2010 (Block 2)	Assigned to Family Medicine but took FMLA -- leave of absence
September 2010 (Block 3)	Obstetrics
October 2010 (Block 4)	Surgery Gynecologic
November 2010 (Block 5)	Surgery General
December 2010 (Block 6)	Internal Medicine
January 2011 (Block 7)	Obstetrics & Gynecology
February 2011 (Block 8)	Obstetrics
March 2011 (Block 9)	Pediatrics
April 2011 (Block 10)	NICU
May 2011 (Block 11)	Obstetrics
June 2011 (Block 12)	Gynecology
July 2011 (Block 1)	Family Medicine

Explanation of fields, cover sheet Case 1:

Slot 4	October 2010, Master Schedule/Assigned Service
Slot 5	November 2010, Master Schedule/Assigned Service
Slot 6	December 2010, Master Schedule/Assigned Service
Slot 7	January 2011, Master Schedule/Assigned Service
Slot 8	February 2011, Master Schedule/Assigned Service

Slot 11	May 2011, Master Schedule/Assigned Service
Slot 12	June 2011, Master Schedule/Assigned Service

Case 1 Annual Report cover sheet **should** look like this:

<i>RESIDENT'S ANNUAL REPORT FOR OB/GYN</i>

Note Fields:													
Resident:	PD:												
FMLA August 2010, OGME contract extended, contract dates: July 1, 2010-July 31, 2011.	None												

 **This date must match the date of service established in the Resident's contract housed in Medical Education and ACOOG Offices. Contract dates do not always match Academic Year dates. This Resident is off cycle.**

Special note: Block slot no.2 is blank and **should** be blank because the resident was off on FLMA in August of 2010. The Family Medicine rotation that was assigned for August of 2010 was made up in July of 2011. Rotation slot no. 1 has two rotations/types of service listed because the resident did Emergency Medicine in July 2010 (Block no.1) and Family Medicine in July 2011 (also Block no.1). Rotation Slot no. 7 has two rotation types listed because the resident did a special rotation for that hospital named "OB and GYN." An explanation of the resident's leave has been added to the Resident's "Note Field."

If the numeric summary on page two of the Annual Report meet ACOOG standards this Annual Report should be accepted.

Hypothetical case 2: Resident Off Cycle -- Leave of Absence the Previous Academic Year

Dr. DiSalvo¹ is a third year resident who took a leave of absence June 2012 through August 2012 during her contract year two. Contract year 2 was extended to September 21, 2012 to accommodate the leave. Year 3 contract dates September 22, 2012 - September 22, 2013. At first glance it appears that Dr. DiSalvo has two rotations incorrectly listed in the September slot.

Master Schedule starting September 1, 2012:

Month/Block Number	Assigned Service/Master Schedule
September 2012 (Block 3)	Gynecology
October 2012 (Block 4)	Reproductive Endocrinology
November 2012 (Block 5)	Obstetrics
December 2012 (Block 6)	Gynecology
January 2013 (Block 7)	Obstetrics
February 2013 (Block 8)	Obstetrics

April 2013 (Block 10)	Ambulatory OBGYN
May 2013 (Block 11)	Obstetrics
June 2013 (Block 12)	Urogynecology
July 2013 (Block 1)	Urogynecology
August 2013 (Block 2)	Urogynecology
September 2013 (Block 3)	Ambulatory OBGYN

Case 2 Annual Report cover sheet **should** look like this

RESIDENT'S ANNUAL REPORT FOR OB/GYN

Name: **Heidi E. DiSalvo, D.O.** Dates: **09/22/2012 - 09/21/2013**

Note Fields:

Resident: **PD:**
None *None*

 **This date must match the date of service established in the Resident's contract housed in Medical Education and ACOOG Offices. Contract dates do not always match Academic Year dates. This Resident is off cycle.**

Special note: Because Dr. DiSalvo's Contract year starts in mid-September it will always appear that she has two rotations types for the month of September. In this case, September lists two rotations, one for the beginning of her Contract year and one for the end of her Contract year.

Hypothetical case 3, resident off cycle: Extended Leave of Absence

Resident Dr. OBGYN Slick is a first year resident (OGME-1) who took a required military leave of absence (MLOA) from January 1, 2011 – June 30, 2011. Dr. Slick's OGME-1 contract year was extended to December 31, 2011.

Contract year: OGME-1 July 1, 2010-December 31, 2011

Master Schedule academic year starting July 2010:

October 2011 (Block 4)	NICU
November 2011 (Block 5)	Obstetrics

Slot 11	May, Military LOA for May 2011 (should be blank)
Slot 12	June, Military LOA for June 2011 (should be blank)

* This date must match the date of service established in the Resident's contract housed in Medical Education and ACOOG Offices. Contract dates do not always match Academic Year dates. This resident is off cycle.

Case 3 Annual Report cover sheet **should** look like this:

RESIDENT'S ANNUAL REPORT FOR OB/GYN		
Name: Dr. OBGYN Slick	Dates: 07/01/2010 - 12/31/2011	
AOA #: 1111111	Institution: MSUCOM Test	
Training Year: One	Program Number: 041711	
ROTATIONS (Current Training Year)	1. Emergency Medicine OB and GYN	7.
	2. Family Medicine Obstetrics	8.
	3. Obstetrics Pediatrics	9.
	4. Surgery Gynecologic NICU	10.
	5. Surgery General Obstetrics	11.
	6. Internal Medicine Gynecology	12.
Note Fields:		
Resident:	PD:	
Military LOA, 1/1/2011-6/30/2011. OGME-1 extended. OGME-1 = 7/1/2010-12/31/2011.	None	

Special Note: Block s slots 7-12 are blank and should be blank because the resident was of on military leave from January 2011 through June 2011. Block slot 1 has three rotations types because the resident did Emergency Medicine in July 2010 in July of 2011 the resident did a special rotation for that hospital named "OB and GYN." Slots 2-6 represent activity from August 2010-December 2010 AND August 2011-December 2011. An explanation of the resident's leave has been added to the Resident's "Note Field."

If the numeric summary on page two of the Annual Report meet ACOOG standards this Annual Report should be accepted.

Hypothetical case 4: Resident on cycle, typos in Contract Year and Multiple Master Schedule entries.

Resident Dr. OBGYN Slick is a first year resident (OGME-1) whose OGME year runs from July 1, 2010 – June 30 2011. Upon initial review the Program Director notices that the resident has multiple service types listed in the rotation slots and the dates of service seem off.

Master Schedule academic year starting July 1, 2010:

Month/Block Number	Assigned Service/Master Schedule
July 2010 (Block 1)	Emergency Medicine
August 2010 (Block 2)	Family Medicine
September 2010 (Block 3)	Obstetrics
October 2010 (Block 4)	Surgery Gynecologic
November 2010 (Block 5)	Surgery General
December 2010 (Block 6)	Internal Medicine
January 2011 (Block 7)	Two weeks Obstetrics & Two weeks Gynecology
February 2011 (Block 8)	Obstetrics
March 2011 (Block 9)	Pediatrics
April 2011 (Block 10)	NICU
May 2011 (Block 11)	Obstetrics
June 2011 (Block 12)	Gynecology

Explanation of fields, cover sheet Case 4:

Field name:	Acceptable entry
Name:	Resident's full legal name
AOA#	Resident's AOA number
Training year:	Resident's OGME year
Dates:	Resident's contract dates* dates listed are incorrect
Institution:	Base Hospital
Program Number	Base Hospital's AOA program number
Slot 1	July, Two rotations listed
Slot 2	August 2010, Two rotations listed
Slot 3	September 2010, Master Schedule/Assigned Service
Slot 4	October 2010, Two rotations listed
Slot 5	November 2010, Two rotations listed
Slot 6	December 2010, Two rotations listed
Slot 7	January 2011, Master Schedule/Assigned Service
Slot 8	February 2011, Master Schedule/Assigned Service
Slot 9	March 2011, Three rotations listed
Slot 10	April 2011, Two rotations listed
Slot 11	May 2011, Master Schedule/Assigned Service
Slot 12	June 2011, Master Schedule/Assigned Service

* This date must match the date of service established in the Resident's contract housed in Medical Education and ACOOG Offices. Contract dates do not always match Academic Year dates. In this example they do not match because the resident is on cycle with the Academic year.

Case 4 Annual Report cover sheet **should NOT** look like this:

RESIDENT'S ANNUAL REPORT FOR OB/GYN

Name: Dr. OBGYN Slick	Dates: 07/01/2010 - 08/30/2011
AOA #: 1111111	Institution: MSUCOM Test
Training Year: One	Program Number: 041711

ROTATIONS (Current Training Year)		
1.	Emergency Medicine Obstetrics	7. OB and GYN
2.	Family Medicine Obstetrics	8. Obstetrics
3.	Obstetrics	9. Pediatrics Obstetrics Surgery Gynecologic
4.	Surgery Gynecologic Obstetrics	10. NICU Obstetrics
5.	Surgery General Obstetrics	11. Obstetrics
6.	Internal Medicine Obstetrics	12. Gynecology

Note Fields:

Resident: <i>None</i>	PD: <i>None</i>
---------------------------------	---------------------------

Special note:

A: Dates listed 7-1-2010-8/31/2011 are incorrect. The resident's contract year runs from July 1, 2010-June 30 2011. The dates listed on the cover sheet of the Annual Report must match the Resident's contract dates. This error is most likely due to a typo in the date seen field in the case logs.

B: Block slots nos. 1, 2, 4, 5, 6, & 10 have two rotation types listed. This is incorrect. In this case the resident logged all of their OB call under rotation type "Obstetrics." OB call should not be logged under Obstetrics. OB call should be logged under the rotation type listed in the Master Schedule.

C: Block slot no.9 has three rotations types listed this is most likely due to a typographical error or multiple rotations listed for the same block number.

D: Resident did two rotations in January of 2011, two weeks of Obstetrics and two weeks of Gynecology. These rotations should be listed separately and not under "OB and GYN."

This Annual Report should be rejected due to multiple reporting errors. Residents with these types of error may contact the eLogs helpdesk for assistance.

Case 4 Annual Report cover sheet **should** look like this:

<i>RESIDENT'S ANNUAL REPORT FOR OB/GYN</i>			
Name: Dr. OBGYN Slick	Dates: 07/01/2010 - 06/30/2011

<i>Note Fields:</i>			
Resident:	PD:		
<i>None</i>	<i>None</i>		

Special Note: Block Slot no. 7 lists two rotations because the Resident was assigned to two rotations in January 2011. If residents are assigned to multiple rotations/services, then it is acceptable to have multiple rotation types listed in the Block slots.

Hypothetical case 5: Questionable Dates, Questionable Master Schedule

Resident Dr. OBGYN Slick is a first year resident (OGME-1) whose OGME year 1-One runs from June 21, 2010 – June 20 2011. All first years at this institution do 4 week blocks instead of monthly rotations. Upon initial review the Review/Program Director notices that the resident has multiple service types listed in the Block slots and the dates of service seem off.

Master Schedule academic year starting July 1, 2010:

	Dates/Block Number/Block Number	Assigned Service/Master Schedule

	2. NICU Internal Medicine	8. Surgery General Obstetrics
	3. Internal Medicine ICU	9. Obstetrics Family Medicine
	4. ICU Obstetrics	10. Family Medicine Surgery General
	5. Obstetrics	11. Surgery General Surgery Gynecologic
	6. Obstetrics	12. Surgery Gynecologic Obstetrics

Note Fields:

Resident:

PD:

OGME year 1 = Jun 21, 2010-Jun 20, 2011. 13
blocks for academic year 2010/2011

None

Special note: Because this resident is on a 4-week block schedule all the rotation types overlap into the next month, fitting 13 blocks into 12 months. Rotations 5 & 6 have only one rotation type listed because the resident did Obstetrics back to back. This institution starts first year residents in mid-June. The contract dates are listed correctly in "Dates" field. This Annual report is correct even though the fields seem to be repeated and the OGME contract dates do not match the academic year.

If the numeric summary on page two of the Annual Report meet ACOOG standards this Annual Report should be accepted.
