

Intern Instructions Suggested Activity Logs for Different Traditional Intern Rotation Types

General instructions:

The following examples do not list all the possible intern rotations. The activity logs examples listed below are to be used as a guideline. The following examples are merely suggestions for activity log use. It is up to the intern to use a common sense approach to assess the patient encounter and choose the appropriate activity logs.

Rotation Examples:

Internal Medicine *Nephrology* *Neurology* *Pulmonary*

Interns participating in these rotations may have patient contacts in the Ambulatory Clinics and in, but not limited to, the hospital's ICU, CCU, IM, and ER etc. The following forms may be used:

Inhouse Case Participation: used for all Hospital patient encounters such as but not limited to all H&Ps, House officer duty, and ER call. Do not use for clinic or office visits.

Procedures: Used for all non-surgical procedures, this is also the catch all log, if the intern does not know where to log a procedure/activity he or she may use the **Procedures** log.

Ambulatory Case Participation: used for all clinic/office visits. **Ambulatory Case Participation** may be used for OMM/OMT visits performed at the clinic, preoperative consults and postoperative visits. Do not use for hospital patient encounters.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

Family Practice

Interns participating in these rotations generally have patient contacts in the Ambulatory Clinics and with the exception of Obstetrics, rarely any activity in the Hospital. The following forms may be used:

Ambulatory Case Participation: used for all clinic/office visits. **Ambulatory Case Participation** may be used for OMM/OMT visits performed at the clinic, preoperative consults and postoperative visits. Do not use for hospital patient encounters.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

Birth Delivery Vaginal: used for all vaginal births.

OMM/OMT Rheumatology

Interns participating in these rotations generally have patient contacts in the Ambulatory Clinics and rarely any activity in the Hospital. The following forms may be used:

Ambulatory Case Participation: used for all clinic/office visits. **Ambulatory Case Participation** may be used for OMM/OMT visits performed at the clinic, preoperative consults and postoperative visits. Do not use for hospital patient encounters.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

Dermatology Endocrinology ENT Neurosurgery Oncology Orthopedics Urology Surgery Rotations

Interns participating in these rotations may have patient contacts in the Ambulatory Clinics and also in, but not limited to, the hospital's OR, ICU, CCU, and ER etc. The following forms may be used:

Inhouse Case Participation: used for all Hospital patient encounters such as but not limited to all H&Ps, House officer duty, OR and ER call. Do not use for clinic or office visits.

Surgery: Used for all OR and bedside surgical procedures.

Procedures: Used for all non-surgical procedures, this is also the catch all log, if the intern does not know where to log a procedure/activity he or she may use the **Procedures** log.

Ambulatory Case Participation: used for all clinic/office visits. **Ambulatory Case Participation** may be used for OMM/OMT visits performed at the clinic, preoperative consults and postoperative visits. Do not use for hospital patient encounters.

Anesthetic Procedures: used to log the occasional anesthetic procedure that may be done as added experience during the rotation.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

Radiology Pathology

Interns participating in these rotations generally have few patient contacts. The following forms may be used:

Procedures: For Radiology: Admit Date = date of pt. admission; Date Seen = Date film read; procedure = type of radiographic procedure or CT, MRI or film read. For Pathology: Admit Date = date of pt. admission; Date Seen = date pathology sample prepared and/or read, or autopsy attended or performed; procedure = type of sample prepared or autopsy attended or performed and/or autopsy procedures.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

OBGYN
Oncology, Gynecologic
Reproductive Endocrinology
Urogynecology

Interns participating in these rotations may have Obstetric or Gynecologic patient contacts in the Ambulatory Clinics and also in, but not limited to, the hospital's OB, OR, ICU, CCU, PEDs, and ER etc. The following forms may be used:

Ambulatory Case Participation: used for all clinic/office visits. **Ambulatory Case Participation** may be used for OMM/OMT visits performed at the clinic, prenatal visits, gynecological exams, preoperative consults and postoperative visits. Do not use for hospital patient encounters.

Birth Delivery Vaginal: used for all vaginal births.

Birth C-Section: used for all cesarean births.

Medical Management of the OB Pat: used for all Hospital OBGYN patient encounters not involving a birth, such as, but not limited to all H&Ps, House officer duty, OR and ER call. Do not use for clinic or office visits.

Surgery: Used for all OR and bedside non-birth related surgical procedures such as, but not limited to hysterectomy and oophorectomy.

Anesthetic Procedures: used to log the occasional anesthetic procedure that may be done as added experience during the rotation.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

Emergency Medicine
Nights

Interns participating in these rotations generally have patient contacts in the Hospital and rarely if any activity in the Ambulatory Clinics. The following forms may be used:

Inhouse Case Participation: used for all Hospital patient encounters such as but not limited to all H&Ps, House officer duty, OR and ER call. Do not use for clinic or office visits.

Surgery: Used for all OR and bedside surgical procedures.

Procedures: Used for all non-surgical procedures, this is also the catch all log, if the intern does not know where to log a procedure/activity he or she may use the **Procedures** log.

Reading Program: used to log assigned and optional reading done during the rotation such as but not limited to journal club activities, text book reading assignments and case research.

Educational Programs: used to log all lectures, talks or demonstrations attended or given, such as but not limited to noon lectures, weekly departmental lectures and SCS education days.

MSU/SCS staff provides all support for the PDA Intern Log applications.
